

Pinnacle Builds Skilled Team for Retail Display & Millwork Company

Competition for American's hard-earned dollars is fierce, especially with the explosion of online options. So every retail store must be bright, inviting and organized. The retail displays designed and built by Grimes, Iowa manufacturer Performance Display & Millwork make those retail spaces shine. And an important part of the company's success is the team of warehouse workers provided by Pinnacle Staffing Group.

"(Pinnacle) does not take up my time with the run-around," said Clay Coppock, Director of Operations at Performance. "I get straight answers so I'm not surprised. They have a very good understanding of what we do, so they get us good temp employees."

Pinnacle's employees are an integral part of the warehouse team, which is responsible for carefully packaging the displays for delivery and ensuring their safe arrival.

Coppock says that Pinnacle stays in frequent contact, listens to the company's needs, and asks the right questions, which allows Pinnacle to present ideas and solutions.

"I am very happy with Pinnacle and only use their services," Coppock said.
